It was said that no definite arrangements had yet been made for forwarding the steamer's passengers, as no instructions had been sent from the home of-

fice at Glasgow. New York, July 18.—A dispatch from Hahfax says the purser and boat's crew of the steamship State of Virginia, wrecked on Sable island, are extremely reticent, fearing that any published statement would prejudice their cause before the board of trade inernment, it will take no thought concerning us, for if it did it would result in nothing. The State can contribute nothing for our benefit; what the Federal government can do remains to be seen. Our condition is seemingly without any reliefs. The doctors are ready for work, and many of Relief are unwilling to extend the favorable goods tariff to Konigsburg and the Russian railway delegates with a view of renewing the reduced goods tariff for long distances. It appears, however, that the Prussian railway is seemingly without any reliefs. The doctors are ready for work, and many of Relief Petersburg reports that the representatives vestigation on the arrival of the captain at Glasgow. On Friday, the eleventh, a dense fog set in and continued until Sunday morning. At eight o'clock Saturday night, when the captain thought he was twenty-five miles off the east side of Sable island, during the dense fog which enveloped them, the ship struck on a sand-bank at the eastern end of Salting Ports. dence of Governor M'Donald. The minute guns brought the governor and family alongside in sust boats. After the purser, doctor, fourth officer and eleven women and children were landed safely, notwithstanding the heavy surf, Governor M'Donald returned for a second boat-load of eighteen people, but when within about fifty feet of the shore the shore the state of the shore the boat was swamped. One old Irish lady immediately sank, without an effort to save herself. All further attempts to land were useless, till two o'clock in the evening, when the water became a little calmer and the ship's boats were launched, but two boat loads, after getting a short distance from the ship found it impossible to land with safety, returned, and no further attempt was made antil the next morning, when every available argo, which were floating about, were seoured; besides some seventy head of cattle that had swam ashore. Hy six o'clock Monday morning the ship had settled down

in the sand. There was nine feet aft, nine feet in the engine-rooms and about six feet in the hold, and the sea was breaking over the vessel, and it was determined to make an effort to get every soul on shore. All the poats were launched, and the surf-boats from shore again put off. The remaining passengers and crew were put into these boats, and after a great deal of exertion, landed safely some seven miles distant At eight o'clock Monday night the purser, accompanied by thirty passengers and seven of the crew, left Sable island in an open boat to reach the main-and and Halifar to procupe assistance. After many privations and several narrow escapes from drowning, they reached a small place called Port Pinkerton. The agent of the line at Halifax has made arrangements for the government steamer Glendon to sail at

Proceedings Against Criminals in the United States District Courts Postpened for Want of Appropriations for the Marshals.

LITTLE ROCK, July 18.—W. H. H. Clay-ton, United States attorney for the western district of Arkansas, publishes a notice to the effect that no action will be taken at the August term of the court in any criminal case, and informs the parties and witnesses in such cases that their attendance will not be required until November 3d, next. It is alleged that this action is taken because of the failure of congress to appropriate for fees of marshals, and it closes all criminal proceedings in all cases where compensation is paid out of the United States treasury. It is

paid out of the United States treasury. It is probable that further postponements will take phe in November upon a similar pretext. This court's jurisdiction extends over the Indian Territory, and nearly all criminal business is derived from that section. Some forty or fifty alleged criminals are now in confinement in the Fort Smith United States jail, whose trials are thus deferred indefinitely.

NASHVILLE.

Important Developments in the Suits Against Tennessee Bailways by Tennessee Bondholders.

NASHVILLE, July 18.—The developments in the suits brought by the holders of Tennessee bonds against the railroads of this State are attracting much attention. An effort is being made by the bondholders to have a motion to appoint a receiver for cer-tain roads heard on the twenty-sixth instant. Judges Baxter and Trigg, the circuit and district judges of the Federal, and Supreme Judge Strong is selected, though this district is in Judge Swayne's circuit. In the well known case of the St. Paul, Minnesota, railroad company vs. Chamberlain and others the supreme court rendered a decision which is thought to be conclusive of many of the questions made in these cases, and settling them adversely to the bondholders' claims. Judge Strong alone dissented from this opinion. The present move is regarded as an attempt to defeat the adoption of the settlement of the State debt by the people at the August election. The American says that Judge Strong, however, stands so high as an able and upright judge that it is believed here his selection is a fortunate one for the railroad companies, for if he settles the questions involved in accordance with the Chamtions involved in accordance with the Chamroad companies is a much stronger one than shown in that case, the bondholders will

abandon further prosecution of their suit. LATEST TELEGRAMS.

The question arose whether, under the act empowering the board, such details were mandatory, but it was not finally determined. nandatory, but it was not finally determined. The sentiment of the members present appeared to be that it would be very unjust to detail these officers to such places at the risk of their lives. sixty-eight votes, a majority of the whole convention. An appeal from the decision of the chair was made and tabled. It was then claimed that the Democratic party would be claimed that the Democratic party would be held responsible by the people for the solution of the debt question, and the convention prices. Very truly,
